

Tube Cutting Machine C03

Feature

- Microcomputer, stepper motor, color touch screen. versatile cutting machine, especially apply to heat-shrinking tubing.
- Automatic cutting length modify function, guarantee precise cutting and avoid waste. All the parameters are easy to set via touch screen.
- High speed, low noise, low power consumption, easy maintenance.
- User-friendly interface, easy operation. Data library stores 100 programs.
- CE-Conformity: the C03 complies with CE equipment guidelines relative to mechanical and electrical safety and electromagnetic compatibility.

Technical Parameter

Model	C03 Tube Cutting Machine
Function	Speed adjust, Length modification, PVC tube, heat-shrink tubing
Cutting Range	1-8mm in O.D
Cutting Length (L)	0.1-9999mm
Cutting Length Increment	0.1mm
Cutting Length Tolerance	0.002 x L
Production Rate	10000-30000pcs/h
Display	Color touch screen, bilingual
Memory Capacity	100 programs
Rated Power	220W
Power Supply	AC220V, 50/60Hz
Dimensions(LxWxH)	380x250x320mm
Weight	24KG
