# Multi-core Cable Cutting and Stripping Machine
CS08

Feature

- Exclusively designed cable stripping machine for round multi-core cable. Cut and strip double layers in one cycle. Adapt to cable up to 5mm in O.D.
- Unique wire carding device and blades shorten cycle time, bring precise processing and high production rate.
- Automatic length modification improves cutting accuracy and decrease waste.
- Wire lack detection stops machine automatically and sounds alarm, which maximize human resource.
- Robust machine, long service life. User-friendly interface and color touch screen simplify operation.
- CE-Conformity: the CS08 complies with CE equipment guidelines relative to mechanical and electrical safety and electromagnetic compatibility.

Technical Parameter

Model	CS08 Multi-core Cable Cutting and Stripping Machine
Function	Round multi-core cable, cut, strip, double layers
Cable Range	5mm in O.D
Stripping Length	Outer: Tail Strip(left) 100mm, Lead Strip(right) 250mm Inner: 30mm
Stripping Length Increment	0.1mm
Cutting Length	0.1-9999mm
Cutting Length Tolerance	0.002 x L
Production Rate	1300 pcs/h
Memory Capacity	100 programs
Power Supply	AC220V ,50/60Hz
Air Supply	0.4-0.7MPa (clean and dry compressed air)
Dimensions (LxWxH)	500x630x350mm
Weight	38KG
